

“Life begins at the end of your comfort zone.
So if you’re feeling uncomfortable right now,
know that the change taking place in your life is
a beginning, not an ending.”

- Neale Donald Walsch

I, _____ understand that participating in a regular exercise program prescribed by Joint Effort, LLC if performed correctly, has the potential to improve both physical and mental health and function, but does involve some risk. I understand that the information provided in this application will be used to construct my individual exercise prescription and its accuracy is pertinent to my health during each session.

Although extensive research and studies have proven that of engaging in a regular exercise program can contribute to lowering blood glucose levels, blood pressure, weight, stress, pain and depression, complete assurance cannot be provided. Feelings of increased confidence and self-gratitude are often the result of participation in a regular exercise program and proper eating habits.

The specific exercise prescription I will receive is designed to place a gradually increasing workload, as tolerated, on my cardiovascular and musculoskeletal system using cardiovascular & weight machines, free weights, and resistance bands and has significant potential of improving their function. The reaction of my body to the specific prescriptions cannot be accurately predicted. I understand the risks associated with exercise include blood pressure abnormalities, lung congestion, irregular heartbeats, muscle pain and soreness, and in extremely rare instances a "Heart Attack" or cardiac arrest. I understand that the Joint Effort, LLC staff will take all measures to avoid such occurrences. I understand that providing the staff with current information about changes in my health, which includes any illness or symptoms I experience during exercise, at home or anywhere else, is essential for the staff to determine if any modifications to my exercise program are necessary. I understand that if I do not inform the Joint Effort, LLC staff, I may be putting myself at risk for injury or serious medical problems.

I understand that I am required to respect the rights of all participants and staff members involved with Joint Effort, LLC. I understand that staff has the right to address concerns about my health with my physician and may ask to temporarily discontinue my exercise program until my physician evaluates my condition and advises my return.

I acknowledge that no guarantees can be made to me as a result of my participation in the program. I hereby release Joint Effort, LLC, its affiliated entities, employees, trustees and their respective representatives and agents from all claims, liabilities and causes of action arising or associated with my participation in this program.
